BUBBLE PUNK

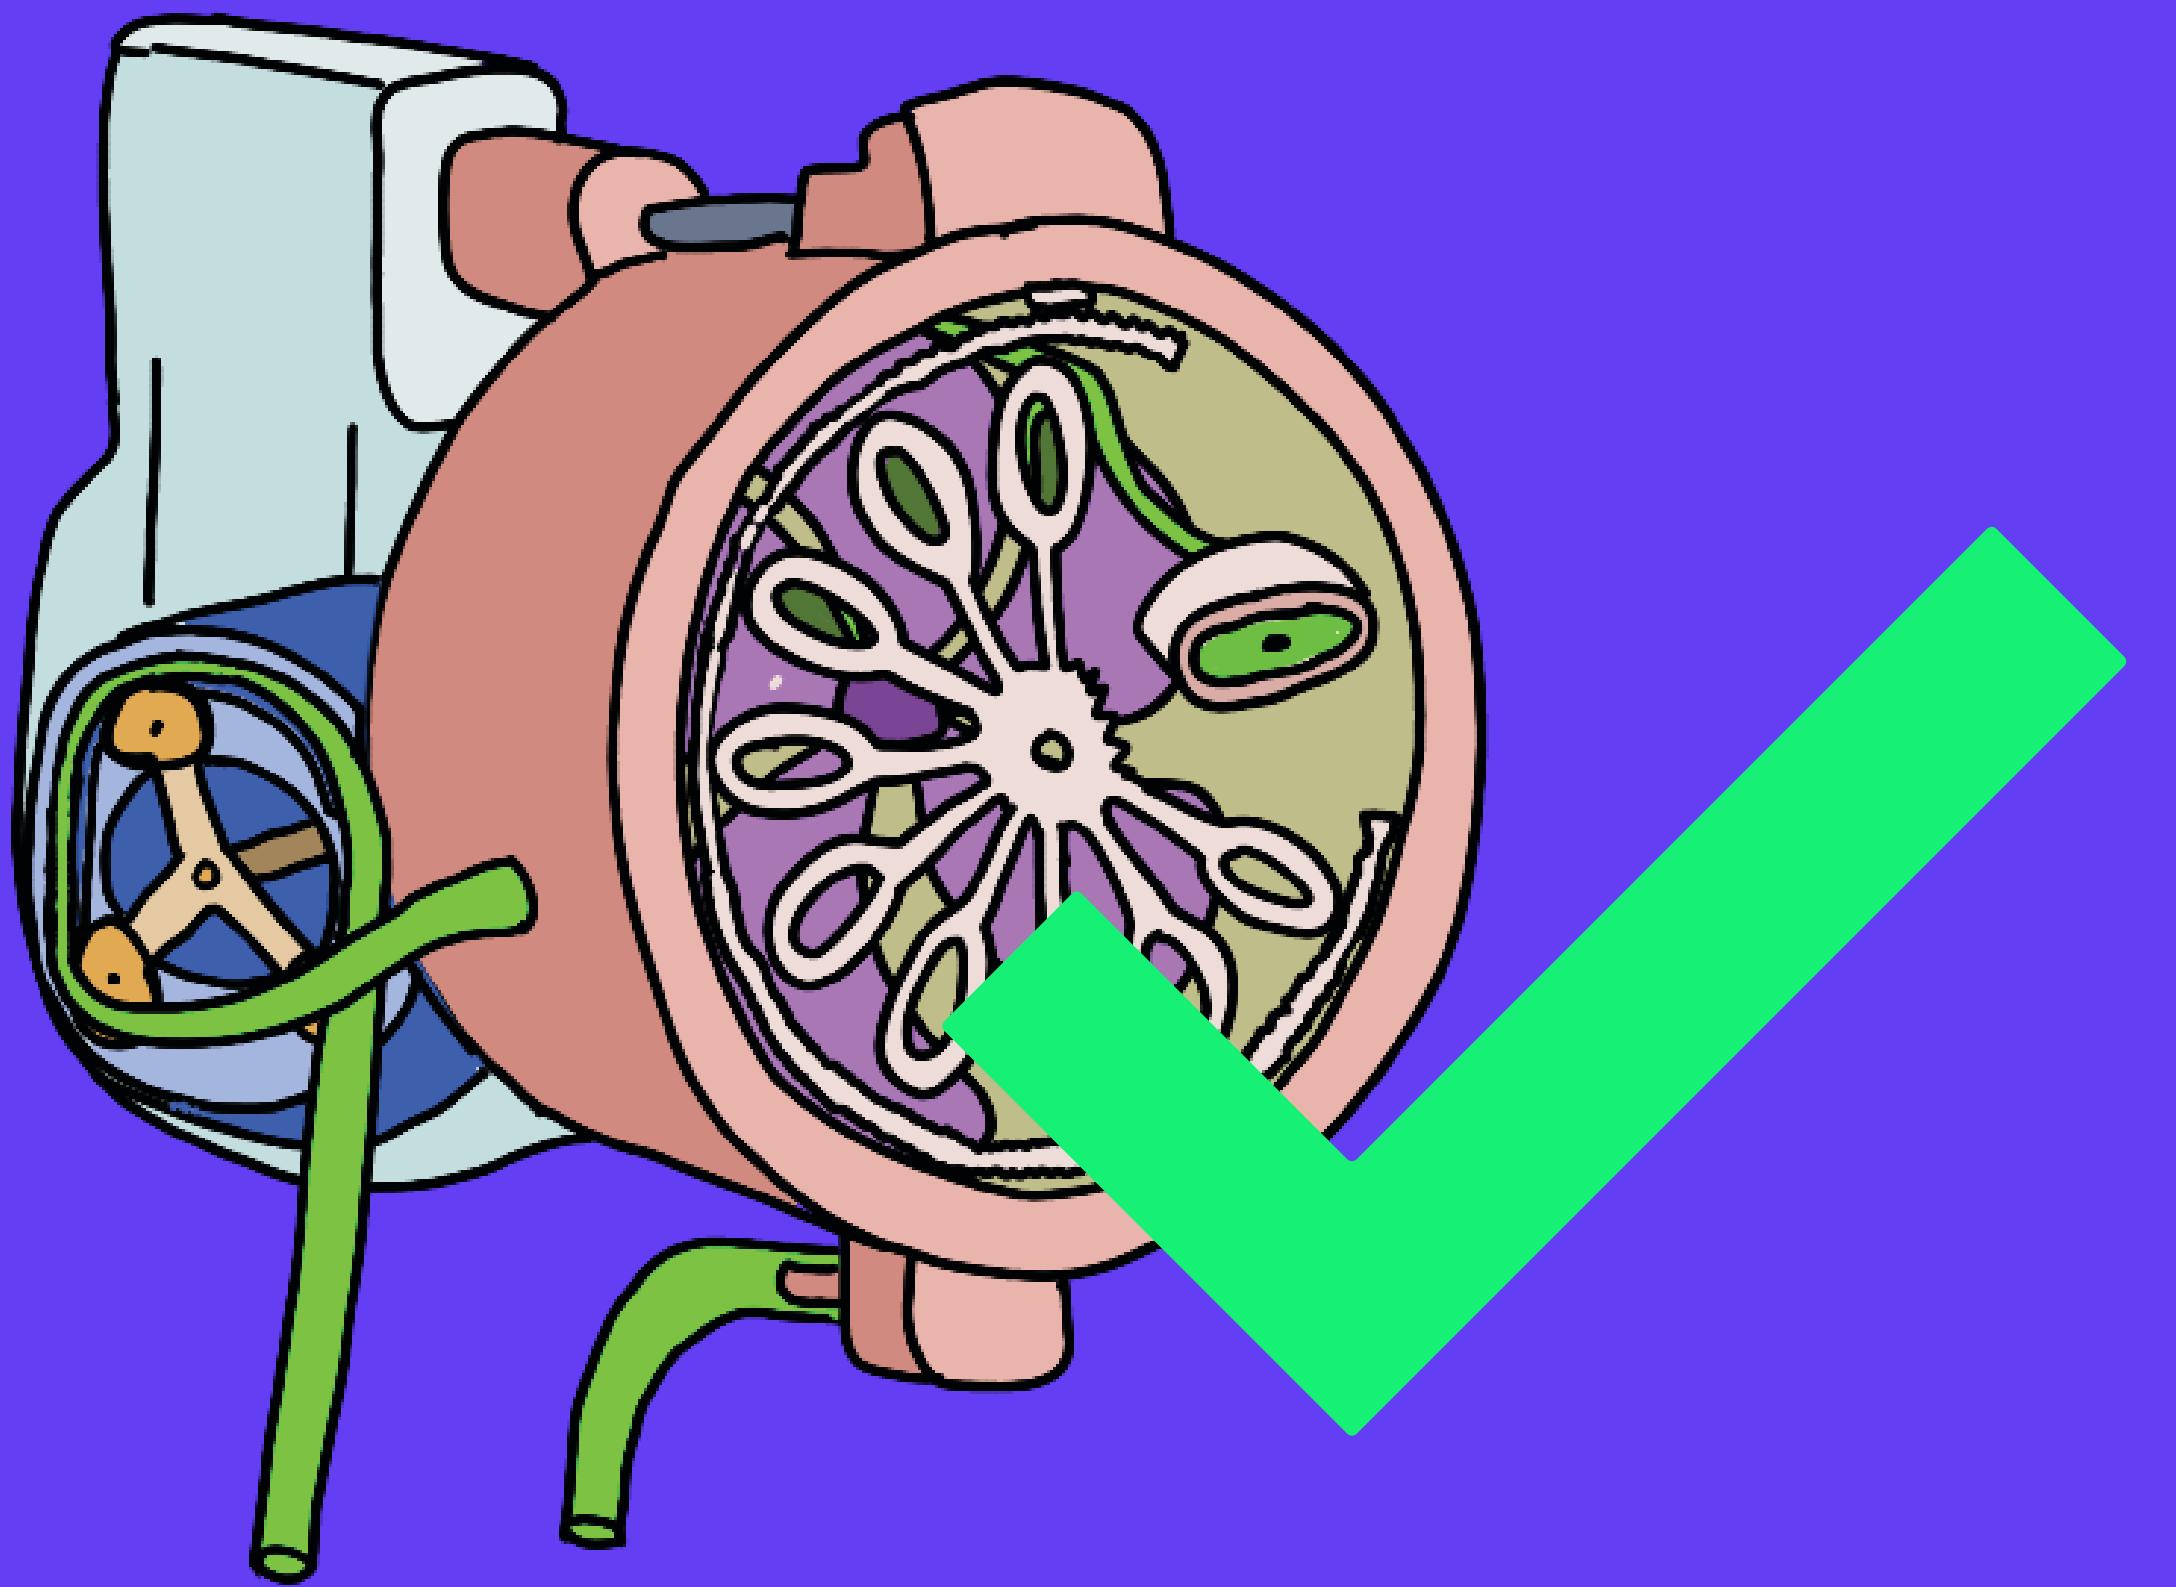

Punk Level 1: Free stuff

Punk Level 2: Sharing freely with others

Punk level 3: Liberating things that were locked up so that others can share too!!

LIVE BUBBLE BLASTER TOUR!!!

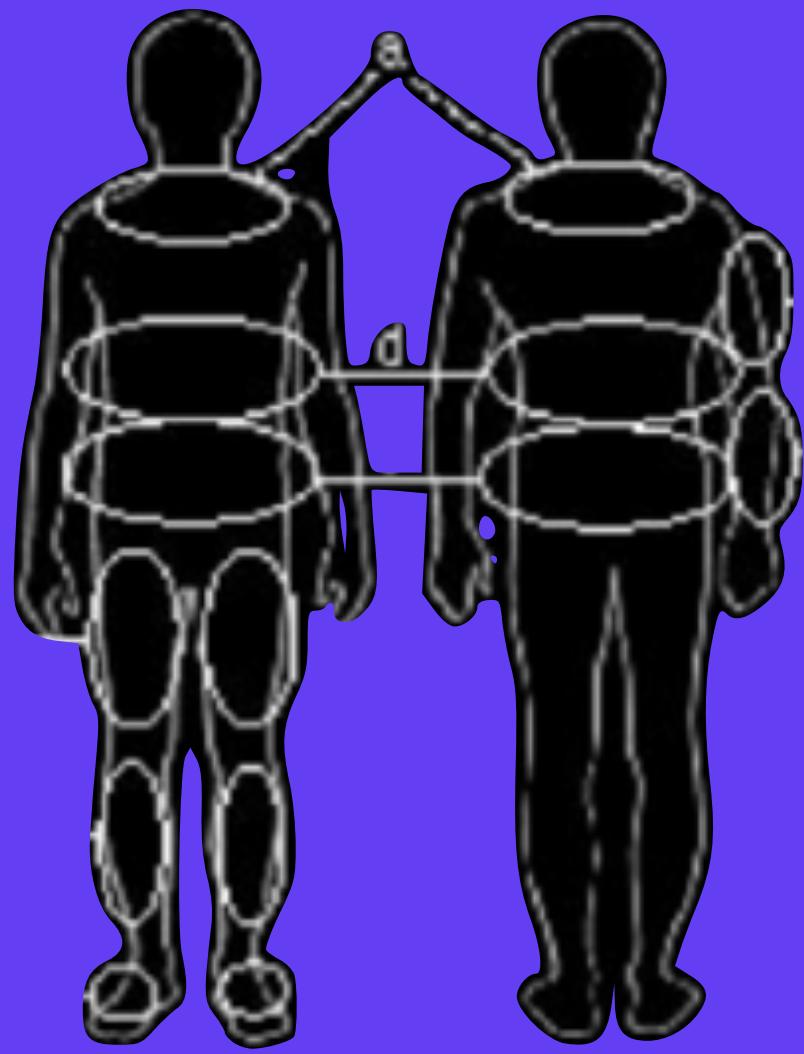

BUBBLE NIPPLES NOT BUBBLE DIPPLES

Every bubble blaster has basically the same parts. A pump, a button, a battery, and a vessel for holding bubble solution. But they're all arranged differently!

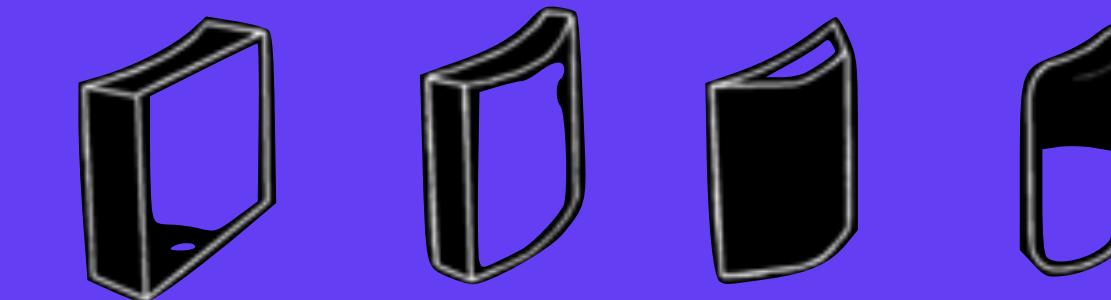

Placement

Design For Wearability

Form language

Movement

Attachment

Proxemics

Buttons can be replaced by
any activation method!

Batteries can be replaced by any power
source! Solar panels anyone?

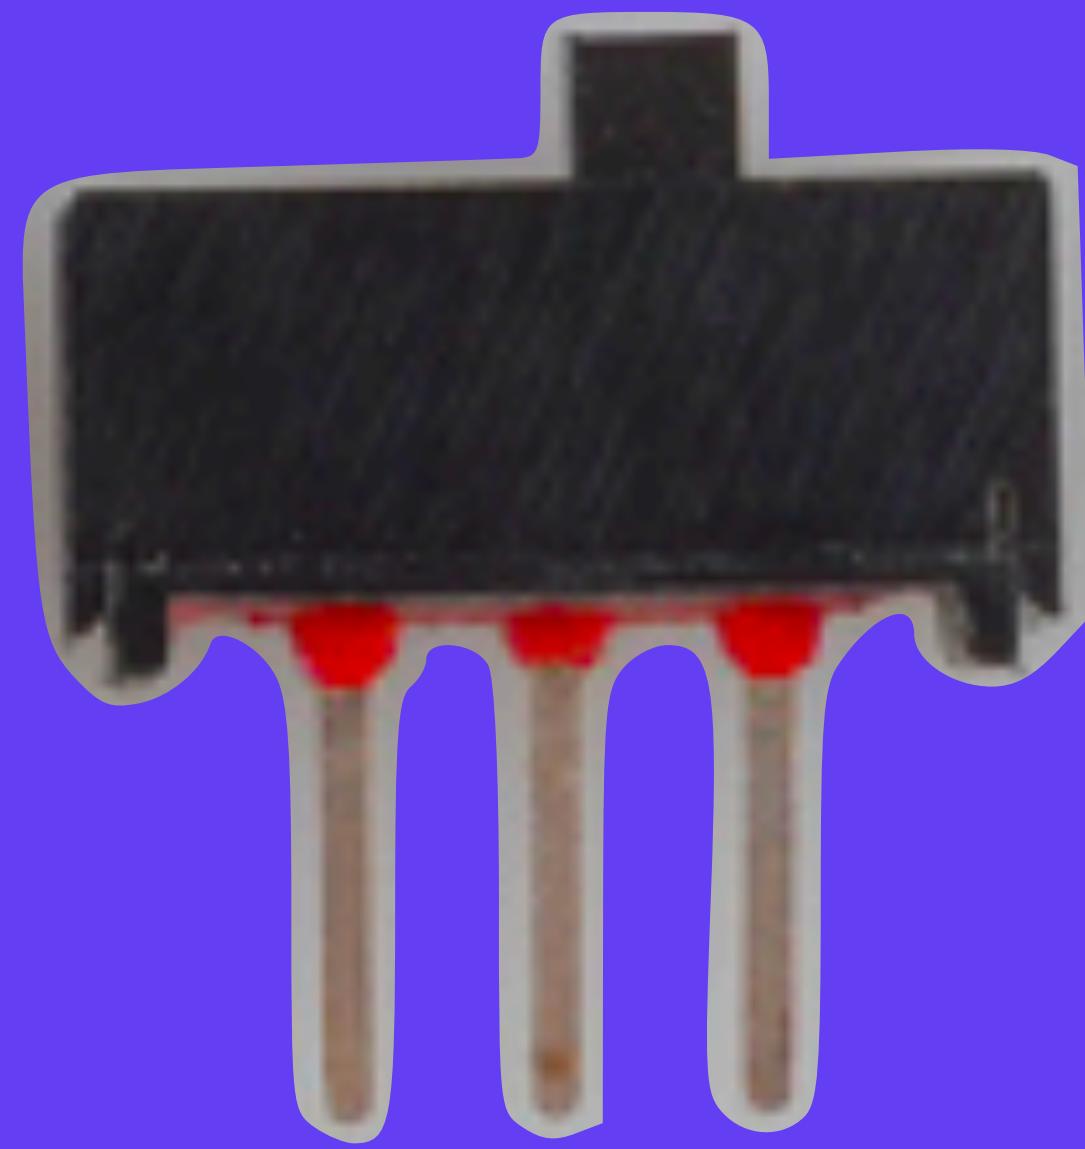

Activation Method

Push

Flip

Slide

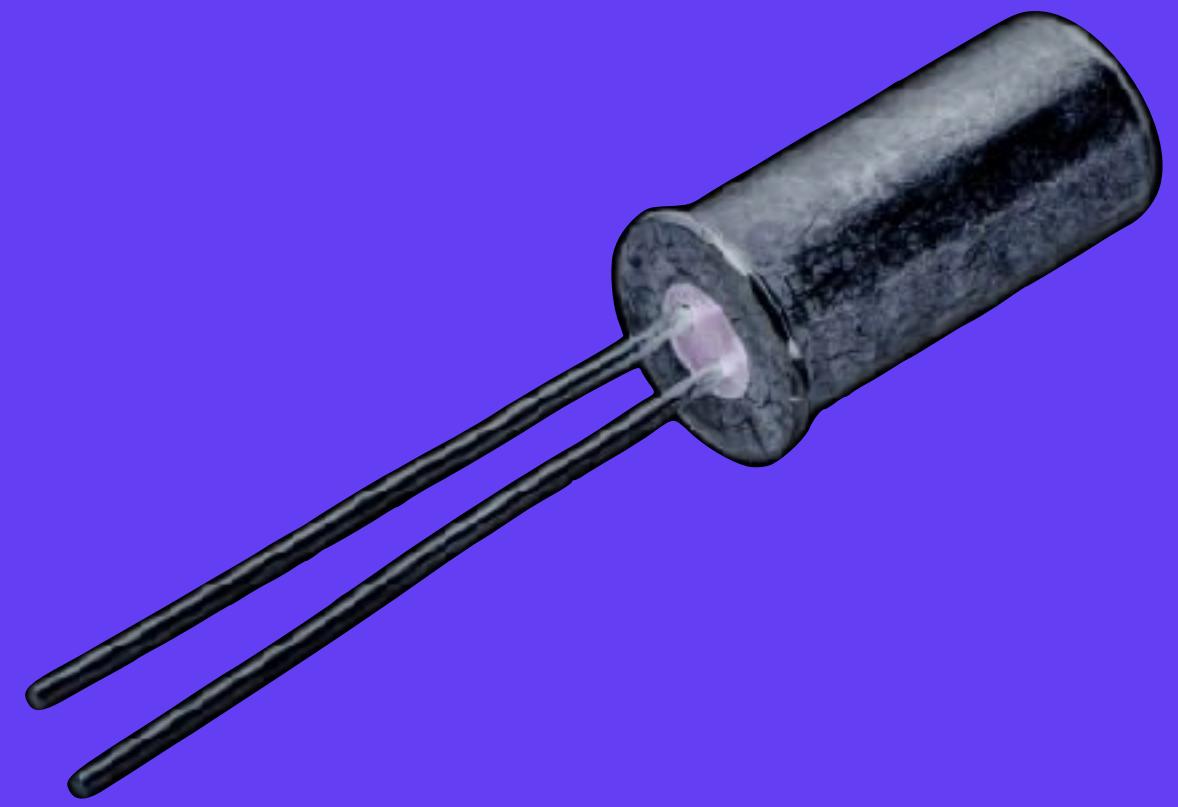

Momentary

Momentary buttons or switches are only activated when they are being pressed.

State

State buttons or switches have multiple positions they keep when they aren't being held in that place. Press once to turn on, then again to turn off.

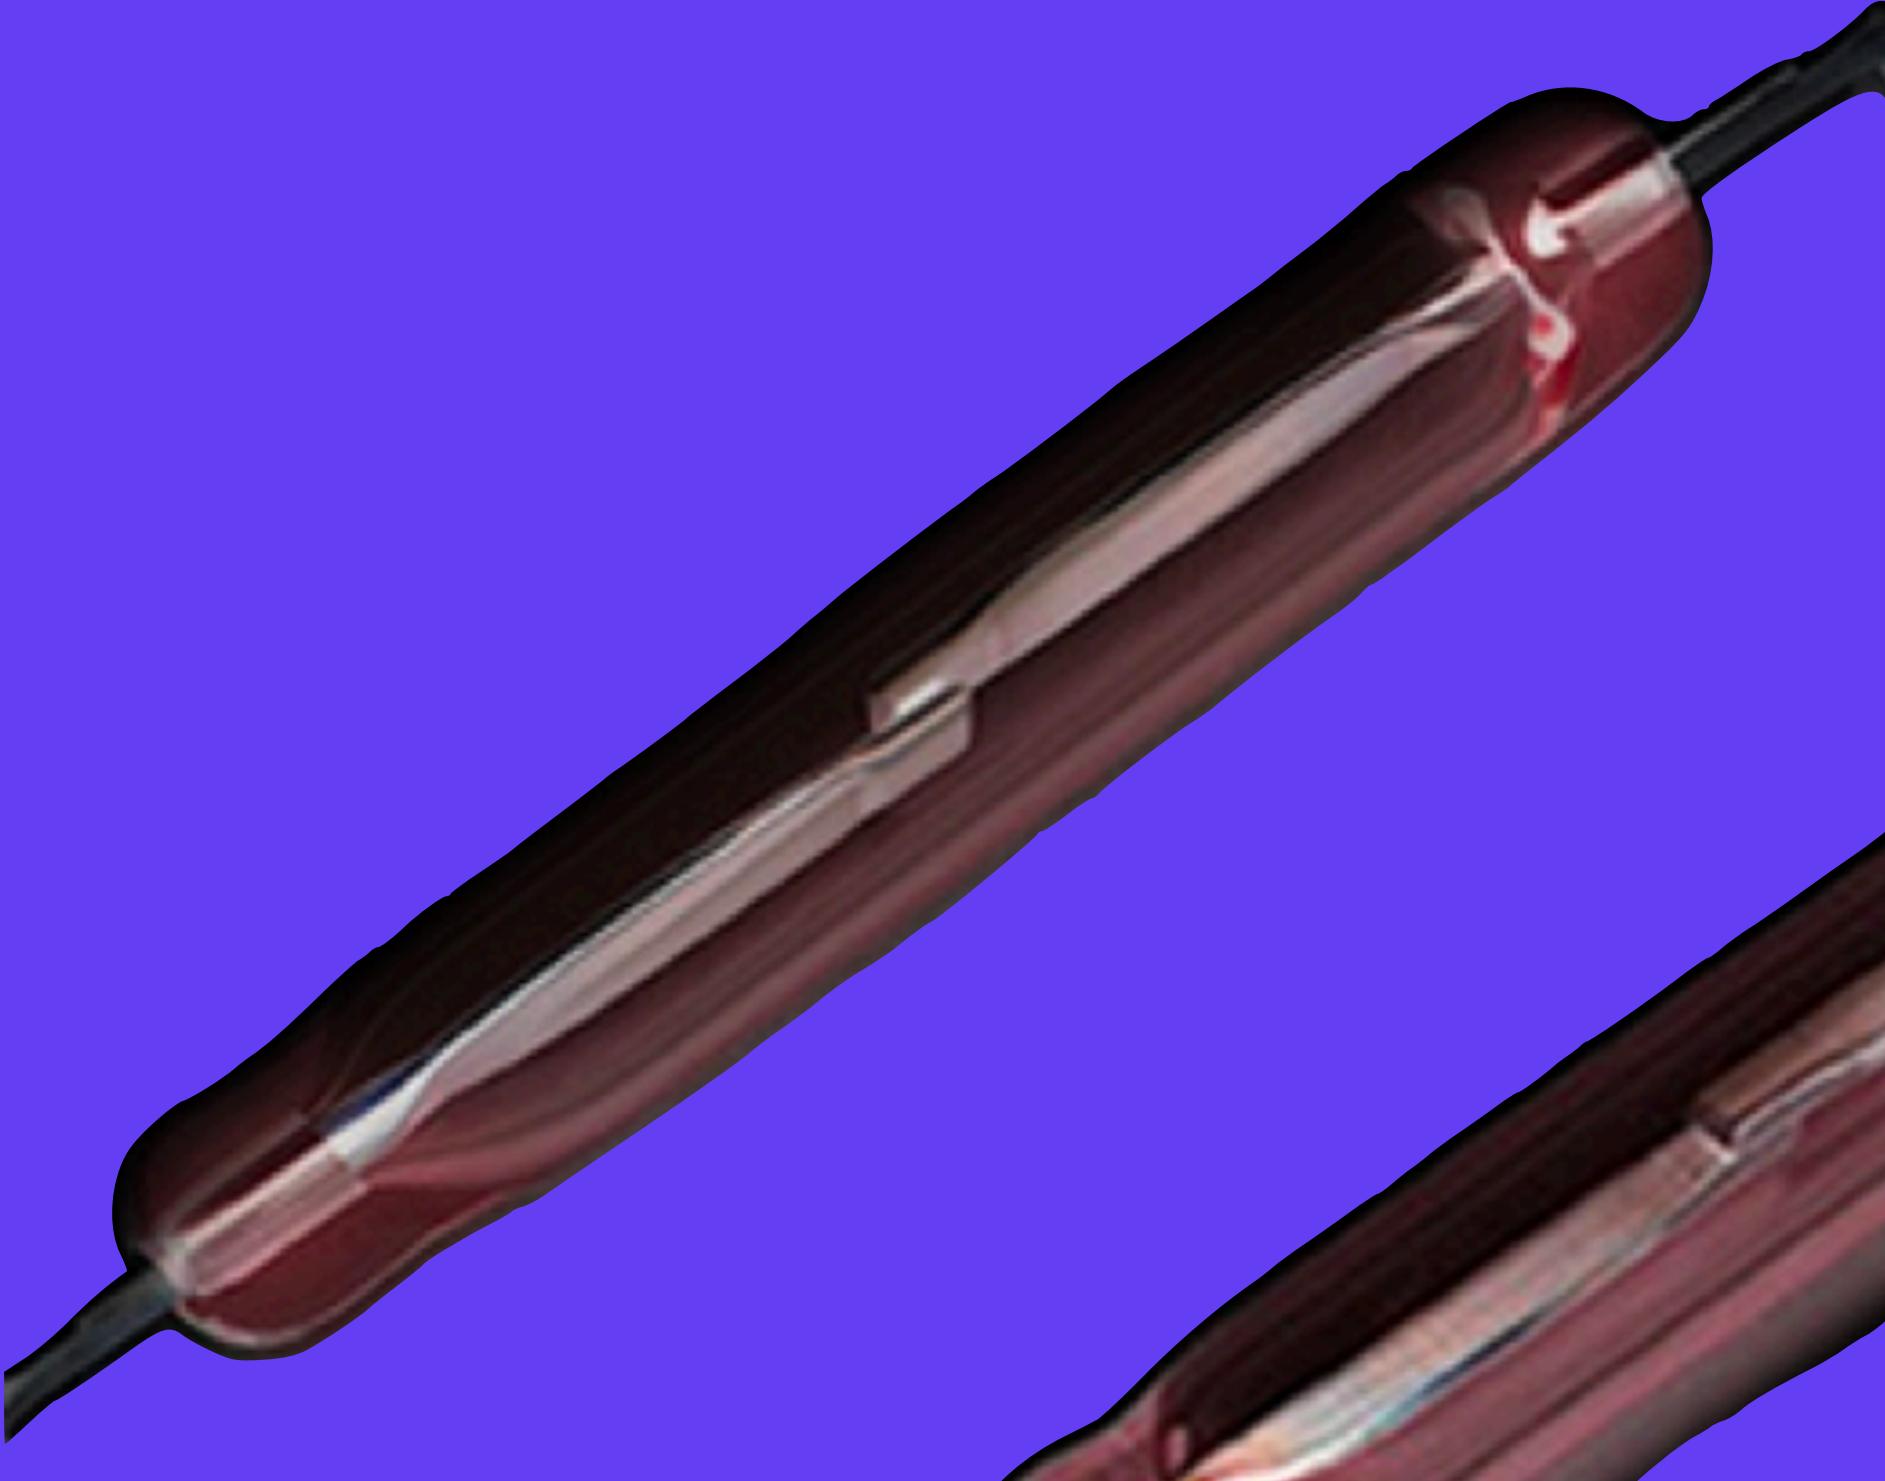

Twirl with
